

Nature bingo

How to play:

1. Explore your backyard (or nearby green space). Look closely at trees, flowers, rocks, soil and even the sky!
2. Spot the items on your card. When you find something, mark it on your card with a check, colour or sticker!
3. Get a bingo! Try to mark five items in a row—horizontally, vertically or diagonally.
4. Keep discovering. Even after a bingo, keep exploring—there are lots more things to see in nature!

Rainbow
