Weather: ☀ Sunny / ☁ Cloudy / 🌧 Rainy / ❄ Snowy / 🌬 Windy

Time of day: 🌅 Morning / 🌞 Afternoon / 🏠 Evening / 🌙 Night

Animals I saw or heard:	What were they doing:

Draw what you saw

Sketch some of the animals or habitats you spotted today!

Observation log

Safe and respectful wildlife observation tips:

- Go to parks or nature trails – these places are full of animals.
- Look near water – birds, frogs, and insects like ponds, streams or puddles.
- Be quiet and still – animals notice noise and movement, so stay calm and wait patiently.
- Look up and down – animals might be in trees, bushes, on the ground or under leaves.
- Bring binoculars or a magnifying glass – they help you see animals from a safe distance.
- Watch for signs of animals – look for tracks, nests, feathers or droppings nearby.
- Stay on paths and respect nature – don't step on plants or disturb animal homes.
- Never touch or chase wild animals – always watch from a safe distance to keep you and the animals safe.
